

MATH & SEMESTER SYSTEM

Class schedules at the majority of Secondary Schools in Peel are organized in a Block Semester System¹. Students have 4 subjects in the Fall Semester and then 4 new subjects in the Winter Semester.

What does this Means for Your Student and Math?

They will be in one of the 4 schedule patterns illustrated below.

	GRADE 9		SUMMER BREAK (July & August)	GRADE 10		Time Gap Between Math Courses
	FALL SEMESTER (Sept.- Jan.)	WINTER SEMESTER (Feb. – June)		FALL SEMESTER (Sept.- Jan.)	WINTER SEMESTER (Feb. – June)	
1	MATH	-		MATH	-	7 Months
2	-	MATH		-	MATH	7 Months
3	MATH	-		-	MATH	12 Months
4	-	MATH		MATH	-	2 Months

THE MAJORITY OF STUDENTS (75%) WILL HAVE A TIME GAP BETWEEN MATH COURSES OF 7 MONTHS or MORE (7 MONTHS = 50% & 12 MONTHS = 25%)

25% OF STUDENTS WILL BE SLIGHTY* MORE FORTUNATE TO HAVE ONLY A 2 MONTH GAP.

** We say slightly more fortunate because they too will have a 7 or 12 month gap before having Grade 11** Math*

*(** These marks are important for University and College entrance requirements)*
