**Subject:** You have our support...

Good morning all,

Just a short follow-up email at this point to let you all know that you have the support of Peel Education Workers United (and, by extension, of the broader labour community in Peel - through the Peel Regional Labour Council and the Canadian Labour Congress) in the coming days and weeks.

We felt strongly that your individual visions for public education, for students, and for education workers will serve us in good stead in the four years ahead - and it is our strong desire to see a board of trustees composed of all of you.

Please expect to receive additional communication from us in the very near future as we will all be interested to know how we might be able to bring the power of our individual memberships to bear on your campaigns.

A Happy Saturday to all, and we'll be in touch.
